The extent of Europe's influence in the twenty-first century is one of the fundamental questions in a rapidly changing world order. How much does Europe still matter in geostrategic affairs? Will the Europeans seek more international clout and be willing to pay the price for it? Above all, will the European-American partnership prosper or weaken? In the only comprehensive study available on the subject, leading international experts explore these vital questions for global peace and security. The book includes authoritative chapters on the foreign policies of the major European countries, of the European Union, and of Europe toward key regions and countries—especially the United States, Russia, China, and the Middle East.
