Risk Management in Financial Institutions: Formulating Value Propositions J.H.M. Van Grinsven

Risk managers are under pressure to compete in a competitive environment while solidly honouring their obligations and navigating their business safely toward the future. Paramount to their success is the ability to identify, formulate, assess and communicate value propositions to their stakeholders. This book presents valuable insights from principal researchers and practitioners from leading financial institutions. They provide many insightful ideas, concepts and methods to help shape or reshape value propositions.
