## **Contributions Of African American Scientists To The Fields Of Science, Medicine, And Inventions (Distinguished Men and Women of Science, Medicine and the Arts)**

All individuals included in this book are listed in the published literature. Scientists included in this book represent the fields of biochemistry, biology, chemistry, computer science, dentistry, engineering, entomology, genetics, geology, mathematics, medicine, nursing, physics, psychology, sociology, zoology, and inventions. Described here are African American men and women who have contributed to the advancement of science including inventions. These individuals have contributed in large and small ways that might have been overlooked when chronicling the history of science. African Americans have made many significant contributions to science and medicine since their arrival in America. During the period of segregation an unknown number of African Americans did not acknowledge their status as Negroes for their own reasons. Nevertheless these individuals made contributions, but the number and significance of them remain unknown and are unlikely to be known. Individuals listed include their birth, death, educational, and career information are given as well as a description of their contributions, including dissertation, thesis, book titles, published papers, research conducted, inventions, and patents awarded if they were available.
