Mobile Positioning and Tracking: From Conventional to Cooperative Techniques

João Figueiras, Simone Frattasi

Mobile Positioning and Tracking: From Conventional to Cooperative Techniques João Figueiras, Simone Frattasi

This book presents the most recent state of the art in mobile positioning and tracking techniques.

This book discusses mobile positioning solutions applied on top of current wireless communication networks. In addition, the authors introduce advanced and novel topics such as localization in heterogeneous and cooperative networks, providing a unified treatment of the topic for researchers and industry professionals alike. Furthermore, the book focuses on application areas of positioning, basics of wireless communications for positioning, data fusion and filtering techniques, fundamentals of tracking, error mitigation techniques, positioning systems and technologies, and cooperative mobile positioning systems.

Key Features:

- Covers the state of the art of satellite- and terrestrial-based positioning systems, spanning from outdoor to indoor environments and from wide area networks to short-range networks
- Discusses a whole range of topics related to mobile positioning: from fundamentals of positioning to the description of a wide spectrum of mobility models for tracking, from details on data fusion and filtering techniques to error mitigation techniques (including aspects of signal processing)
- Provides a solid bridge between research and industry envisaging a potential implementation of the presented solutions
- Fills the gap between positioning and communication systems, showing how features of communication systems can be used for positioning purposes and how the retrieved location information can be used to enhance the performance of wireless networks.
- Includes an accompanying website

This book will be a valuable guide for advanced students studying related courses. Professionals and practitioners in the field of positioning and mobile technologies, and software and service developers will also find this book of interest.

From reader reviews:

Maritza Kress:

The particular book Mobile Positioning and Tracking: From Conventional to Cooperative Techniques will bring you to definitely the new experience of reading some sort of book. The author style to elucidate the idea is very unique. If you try to find new book to see, this book very suitable to you. The book Mobile Positioning and Tracking: From Conventional to Cooperative Techniques is much recommended to you to see. You can also get the e-book from official web site, so you can easier to read the book.

Amy Zambrano:

Beside this Mobile Positioning and Tracking: From Conventional to Cooperative Techniques in your phone, it might give you a way to get closer to the new knowledge or facts. The information and the knowledge you will get here is fresh from your oven so don't become worry if you feel like an previous people live in narrow commune. It is good thing to have Mobile Positioning and Tracking: From Conventional to Cooperative Techniques because this book offers for you readable information. Do you occasionally have book but you don't get what it's facts concerning. Oh come on, that would not happen if you have this in your hand. The Enjoyable blend here cannot be questionable, like treasuring beautiful island. Techniques you still want to miss it? Find this book and read it from now!

Brittany Gonzalez:

Is it anyone who having spare time after that spend it whole day by means of watching television programs or just resting on the bed? Do you need something new? This Mobile Positioning and Tracking: From Conventional to Cooperative Techniques can be the solution, oh how comes? A fresh book you know. You are and so out of date, spending your time by reading in this brand-new era is common not a nerd activity. So what these guides have than the others?

Christina Almonte:

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library in order to make summary for some book, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the professor want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that looking at is not important, boring and can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Mobile Positioning and Tracking: From Conventional to Cooperative Techniques can make you experience more interested to read.
