The Curvy Astronomer and the Cowboy (He Wanted Me Pregnant!) Victoria Wessex
From USA Today Bestselling Author Victoria Wessex: a standalone romance with a HEA and no cliffhangers.

Curvy astronomer Emily is used to life on her own. She lives on the road, making just enough from her photos to survive. But for her latest assignment, she'll have to find somewhere that's really, REALLY dark--some place far away from all civilization.

Cowboy Troy knows horses, not the Horsehead nebula. He agrees to take the stubborn scientist out to a tiny cabin in the mountains, rather than see her get lost...but a blizzard traps them there, miles from the nearest living soul.

A Wyoming winter can be dangerous: howling winds, blizzards, even bears. Can Troy protect the curvy stargazer...and tell her he's fallen for her? And will loner Emily really want to stop running, settle down...and start a family?

As a college student exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some e-book, they are complained. Just very little students that has reading's heart or real their interest. They just do what the educator want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that reading is not important, boring and can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you.
