Jules "Julie" Lasner volunteered for service after the United States entered World War II, and he was trained as a navigator in a B-17 Flying Fortress. Lasner flew twenty-seven missions over occupied Europe during the final phases of a strategic bombing campaign against Germany, dodging the Luftwaffe's anti-aircraft defenses in the cold, wintry skies. Based on interviews with Lasner as well as his wartime correspondence, this book offers a glimpse into his experiences as a member of the 8th Air Force. Along with thousands of others, he pounded the Third Reich around the clock in a four-engine bomber over the last eight months of the war. This account offers an insider's look into the state of the German air defenses as well as some of the effects of the strategic bomb offensive. Lasner's story shows that one person's experiences and decisions affect many people, and it also reveals how he was affected by total war. Go beyond the statistics that so often dehumanize conflict with *One of Thousands*.
