The Void Of Nothingness Marcel Fraser

In "The Void Of Nothingness", the third in a trilogy about journeys, the author asks himself: *What am I doing here - and who is asking in the first place?* Our universal search for meaning usually shepherds us to religion, but often vaults us on to unforeseen philosophies. In this book, the author explores myth, religion, the cosmos, consciousness, and meaning. Looking back on all these inner journeys, the author concludes that he has not arrived anywhere. But that is no surprise. Woe to the one that arrives at his destination.
