## **Reading for Thinking (The Flemming Reading Series)** Laraine E. Flemming

Through a winning combination of easy-to-understand explanations, high-interest readings, and a carefully designed chapter sequence, Laraine Flemming's **READING FOR THINKING** takes the mystery out of critical reading for developmental students. Following a comprehensive review of essential learning and comprehension strategies such as evaluating websites, identifying main ideas, and using organizational patterns to aid remembering, Flemming shows how critical reading is a natural part of comprehending an author's message. Chapter by chapter, students expand their definition of comprehension to include evaluating a writer's purpose, recognizing tone, separating fact from opinion, and determining the degree of bias, while also learning how to summarize and synthesize different points of view on the same topic. In addition to marginal annotations modeling the skilled reader's response, a host of new readings, a new vocabulary feature, and brand new material about reading on the Web, the eighth edition of **READING FOR THINKING** expands the use of writing assignments to help students identify the strategies writers use to effectively communicate their ideas to readers.
