In this sketch of the circumstances which attended the settlement of New England, I have purposely omitted many details which in a formal history of that period would need to be included. It has been my aim to give the outline of such a narrative as to indicate the principles at work in the history of New England down to the Revolution of 1689. Contents: The Roman Idea and the English Idea, The Puritan Exodus, The Planting of New England, The New England Confederacy, King Philip's War, The Tyranny of Andros, Bibliographical Note, Index.
