GENERAL ELECTRIC REFRIGERATORS MACHINES 'DR' models SERVICE MANUAL This is an excellent REPRINT of a manual for the late 1920s & early 1930s General Electric Monitor Top Refrigerator, and those models immediately preceding it up to 1933. Models named inside are: CR controls DA models DR models DRA models DRB models D models DRE models I recently compared it to an original and it is a complete replica of the original text! Comb bound at the spine so it opens like a book to lay flat for shop use, with a few margin flaws (close cut at comb, does not detract from use). This manual covers hundreds of cabinet models, Monitor tops, double doors, single doors, and pictures of most. Every refrigerator and ice Box Conversion cooling machine that GE produced in this era. 8 1/2" X 11" format, 80 pages of installation instructions, actual photographs of the machines, with corresponding part numbers, wiring diagrams, specifications, trouble shooting & the correct adjustments/repairs, how to rebuild the CR controls, etc. A VERY valuable manual for those of you who own and/or are restoring these units. You can't go wrong using a REPRINT of the FACTORY manual for your restoration! No refunds no returns.
