Digital technology can give library media specialists a tremendous amount of power when they're skilled at putting it to its highest and best use for teaching and learning. This new guide offers the newest and most comprehensive treatment of digital technology available today expressly for school librarians. Covering the spectrum of technology management topics, the authors explore planning, assessment, technology-enhanced learning, maintenance, repair, security...and that's just the beginning! Practical information about space and power planning, troubleshooting, social networking, supervision, and more make this handbook an essential companion for new and veteran school librarians who want to stay current with best practices in technology management and for LIS students who are preparing for careers as school librarians.
